

Monthly Dashboard Reports

The monthly Dashboard Report includes the weekly Dashboard Report as well as an Aging Report, Inventory Valuation Report and Days-In-Inventory Report.

The Aging Report is broken down into date range groups.

The Valuation Report shows the value of your inventory grouped by Truck Type. The valuation is either by invoice price or MSRP.

The Days-In-Inventory Report shows the number of days that each truck type averages in the Active Inventory. This is based on sold trucks.
