

QR Sticker

The Addendum Sticker can include a QR Code, but not all vehicles need an Addendum Sticker.

For these vehicles we offer a QR Sticker. This QR Sticker can be attached to the vehicle in much the same way as an Addendum Sticker is attached. QR Codes are prevalent and can be scanned by most any cell phone with a bar code scanning app. The QR Code on the Sticker is specific to the vehicle. When the vehicle's QR Code is scanned it will display the Vehicle's Detail Page from the active inventory.
