

Truck Type Report

To be successful a vehicle needs to be listed in the right truck type category, but It also needs to be listed in every applicable truck type category for the vehicle.

This is true for your website and, as importantly, it is true for advertising on Commercial Truck Trader. Commercial Truck Trader allows three categories per truck and you need to insure they are the right categories for your vehicle.

The Truck Type Report shows you the truck type categories each vehicle is listed in, both in your inventory and on Commercial Truck Trader.
